Medicines for Passover 2010/5770

This list has been compiled by Rabbi A Adler BPharm MRPharms, a practising pharmacist, in consultation with the food technologists of the London Beth Din.

General points regarding medication for Passover:

- In general all solid dose tablets and capsules are in order for Passover use. Wherever possible, tablets or capsules should be used rather than liquid preparations. Flavouring may contain wheat-derived ingredients.
- Many liquid and chewable preparations contain ingredients such as sorbitol and glucose, which may be wheat derived. This includes sugar free antibiotic liquids
- Inedible creams, ointments and inhalers are all permissible. Avoid those which advertise Chametz ingredients on the packaging (eg Aveeno cream, based on oats).
- **Do not alter any prescribed medication without consulting a doctor.**

OVER THE COUNTER MEDICINES

ANTI SMOKING

- NK** Nicorette Chewing Gum
- NP** Nicorette Microtabs
- NK** Nicotinell Gum
- NP** Nicotinell Lozenges
- NK** Niquitin CQ Gum
- NP** Niquitin CQ Lozenges

CHAPPED LIPS

- P** Chapstick
Excluding grape flavour.
- P** Chapstick Medicated Gel
- NP** Labello Lip Care
- P** Lypsil Lip Balm
- P** Nivea For Men Active Care
- P** Nivea Natural Volume
- P** Nivea SOS
- NP** Numark Lip Balm

CONSTIPATION

Products such as Senokot Granules and Califig contain actual Chametz and should not be kept over Passover.

- P** Bisacodyl Tablets

LIQUID FEEDS & DIETARY PRODUCTS

(For seriously ill patients)

The products listed here as suitable for Passover are free from actual Chametz, though in most cases contain kitniot. It is important to use separate vessels for preparing and serving these items on Passover.

Please note that the strawberry, blackcurrant and raspberry flavours of these products sometimes contain E120, which is Not Kosher. If they do, alternative flavours should be used.

ANTIBIOTICS

All antibiotics in tablet and capsule form are permitted. Sugar free varieties of liquid antibiotics should be avoided. If a doctor prescribes an antibiotic liquid for a child, try to obtain one sweetened with sucrose rather than sorbitol. You can ask your pharmacist for advice.

Approved Products for Passover 2010/5770

Food

Baby Milks

If Passover supervised formula cannot be obtained, it is still preferable to use a Kosher one that has been supervised for the year. If supervised formula is not available or in cases where it is not suitable for medical reasons the following may be used. It should be noted that with the exception of soya formulae, these do, of course contain unsupervised milk. Many contain Kitniot. Separate vessels should always be used for their preparation.

Where applicable, listing includes powder and ready to feed versions.

Frozen Fish

All frozen Kosher species of fish, whole or filleted, are permitted for Passover provided some skin is still attached and no other ingredients have been added. It is advisable to rinse the fish before use.

Frozen Vegetables

No unsupervised frozen vegetables are approved for Passover. This is because many factories use starch or citric acid in processing, and may use equipment for pasta products.

Cosmetics For Passover 2010/5770

In general all facial cosmetics, nail varnish, nail varnish removers, antiperspirants, hairsprays, shampoos, shower gels, baby wipes and soaps may be used as they are inedible.

In practise it is better to avoid products which mention the following ingredients on the primary packaging:

Derived From Barley

Amino-peptide complex
Barley Extract
Hordeum Vulgare
Phytophingosine Extract

Derived From Oats

Avena Sativa
Oat Beta Glucan
Oat Flour
Oat Extract
Sodium Lauroyl Oat Amino Acids

Derived From Wheat

Disodium Wheatgerm Amino Peg-2 Sulfosuccinate
Hydrolysed Wheat Protein
Hydrolysed Wheat Gluten
Hydrolysed Wheat Starch
Triticum Vulgarae
Wheat Amino Acids
Wheat Bran Extract
Wheatgerm Oil
Wheat Protein

Contact Lens Care

All products are approved.

Dental Care Products

Please see the Oral Hygiene section of the Medicines list.

Lipsticks & Perfumes

Due to the fact that Lipsticks come into contact with the mouth and Perfumes contain alcohol that may be considered as edible, there is more reason to be concerned about chametz derivatives in these products. It has become increasingly difficult to obtain reliable information about these products.

We are only giving information of companies we have been in contact with this year, thus the listings are somewhat limited. Absence of a product does not necessarily mean that it is a problem.

Lipsticks

Individual lip products can be checked by looking at the ingredients on the primary packaging and checking them against the chametz derived ingredients listed above.

In addition, the following brands of Lip products are free from chametz derivatives:

1. Revlon
2. BWC (Beauty Without Cruelty) Jojoba Lipgloss

Perfumes

As mentioned the potential problem with perfumes is the presence of Alcohol derived from chametz sources. The alcohol used in the following ranges of perfumes is free from chametz:

1. Aramis
2. Bobby Brown Essentials
3. Burberry range
4. Chanel
5. Charlie Body Sprays
6. Clinique
7. Origins
8. Prescriptives
9. Tommy Hilfiger

Pet Food

Since one is not allowed to have Chamets in one's possession over Pesach, nor derive any benefit from it, the following products have been investigated and approved as suitable to be owned and fed to pets over Pesach. (They have also been checked for mixtures of Meat & Dairy from which one is similarly prohibited to derive benefit throughout the year.)

Cat Food

If the approved products listed below are not suitable, an alternative would be to buy the cheapest variety of fresh fish available in the supermarket.

Fish Food

Whilst fish should be maintained on their pellet or flake food for the bulk of their lives, a week on an alternative diet should do them no harm.

Frozen cubes of bloodworm, cockle, mussel, lancefish, brineshrimp etc. may be purchased from aquarium fish shops.

These should be free of grain derivatives, provided they are not vitamin enriched.

Tiny items of fresh fruit such as orange flesh or broccoli are also suitable.

Please note any uneaten food should be removed from the water after 40 minutes or so.

Tetra

NP All Flakes, Pellets and Granules
