

Pet Food for Passover 2010/5770

Pet Food

Since one is not allowed to have Chamets in one's possession over Pesach, nor derive any benefit from it, the following products have been investigated and approved as suitable to be owned and fed to pets over Pesach. (They have also been checked for mixtures of Meat & Dairy from which one is similarly prohibited to derive benefit throughout the year.)

Cat Food

If the approved products listed below are not suitable, an alternative would be to buy the cheapest variety of fresh fish available in the supermarket.

NP Puppy Large Robust Chicken & Rice
NP Puppy Original Chicken & Rice
Puppy Sensitive Salmon & Rice
NP Senior Original Chicken & Rice
Senior Sensitive Salmon & Rice

Fish Food

Whilst fish should be maintained on their pellet or flake food for the bulk of their lives, a week on an alternative diet should do them no harm.

Frozen cubes of bloodworm, cockle, mussel, lancefish, brineshrimp etc. may be purchased from aquarium fish shops.

These should be free of grain derivatives, provided they are not vitamin enriched.

Tiny items of fresh fruit such as orange flesh or broccoli are also suitable.

Please note any uneaten food should be removed from the water after 40 minutes or so.

Tetra

NP All Flakes, Pellets and Granules
