

## KOSHER FISH AROUND THE WORLD

Fresh and frozen kosher species of fish, either whole or filleted, are permitted provided that some skin (bearing easily detachable scales) is attached. All minced fish and products containing fish require Rabbinical supervision.

The following varieties of fish are kosher. Here we list commonly available fish in

21 countries, translating the names where necessary. For lists of kosher fish in other countries, contact the KLBD on 020 8343 6247.
